Notes:

Please see the accompanying Information Pack for more detailed notes.

Project Name – usually includes the road name along with a basic description of the scheme, for example 'Acacia Avenue Resurfacing'.

Road Descriptions – a text description of the section(s) of road affected by a scheme; note that the scheme may not include works to the whole of the section(s) described.

Divisions – lists the divisions which include the section(s) of road affected by the scheme. Many schemes touch or span division or/and district boundaries, so a scheme at a boundary may affect several divisions.

IWP Number – our reference number, unique to the individual scheme.

Status – the current status of schemes:-

In the 2013/14 IWP Delivery Programme:

W = Works in Progress schemes started during 2012/13 (or earlier) and are planned to continue into, and in some cases be finalised, in 2013/14.

C = Committed schemes were originally planned for implementation during 2012/13 but will not now start until 2013/14.

S = Supported schemes are proposed for implementation between April 2013 and June 2014.

I = Under Investigation is used occasionally to indicate a scheme that could proceed under certain circumstances but is not yet certain to go ahead. These schemes are those currently being investigated but no final recommendation has yet been made if or when the scheme should proceed. These schemes may be implemented during 2013/14 if works are found to be necessary and a priority; alternatively they may be implemented during later years if the works are not a priority or they might not be implemented at all if the investigation shows no works are required.

In the 2014/15 Forward Works Programme:

P - Preparation schemes for further development. No works are proposed on site during 2013/14 although in some cases investigation, consultation, preparation and/or design will take place during 2013/14 with a view to implementing these works in the 2014/15 IWP.

County or district wide Projects - for information county-wide project may appear on all division listings, and district-wide project may appear on all division listings within the district.
